## DRAFTING & DESIGN SERVICES - MARINE INDUSTRY

Ocean5 specializes in contract services including drafting for the marine industry. Our level of expertise & experience both in manufacturing and design give you the edge when it comes to applying standards, conveying information to the shop floor, & completing your project both on budget and on time.

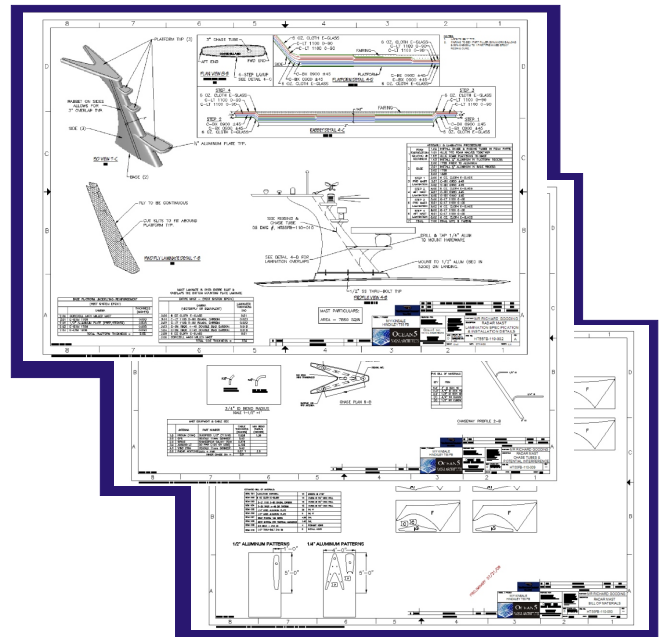

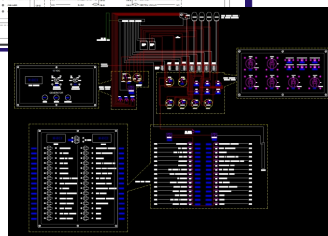

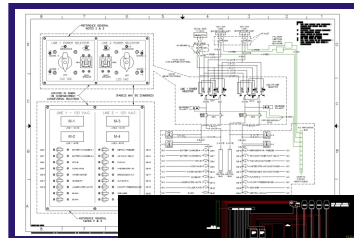

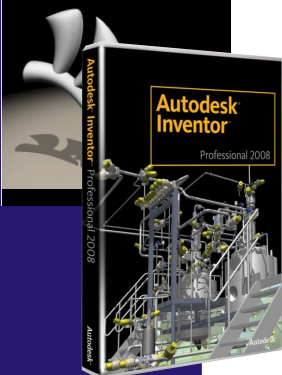

Ocean5 is centrally located to many vendors in Florida, and we are willing to perform inspection and project management services to ensure that projects get constructed according to specification while identifying & proposing solutions to reduce potential delays in the manufacturing process. Some of our deliverables include:

- Structural scantlings, cross sections, & lamination specifications
- Full scale patterns, jigs, templates, & fixtures
- Interior cabinetry construction details
- Interior plan, profile, sections & elevations
- Fuel tanks, water & waste tank construction drawings
- Custom fabrications, including stainless steel & aluminum structures
- Electrical schematics, one line diagrams, lighting & switching
- System schematics, fuel system, potable water, grey water, sea water
- HVAC schematics, chilled water loops, air return & supply
- Hard copies & digital Files: DWG, DXF, PLT, PDF

From megayachts and custom sportfish, to runabouts, we have the experience, capability & resources to help bring your projects to completion.  
Make Ocean5 part of your design team today!
