## NAVAL ARCHITECTURE SERVICES

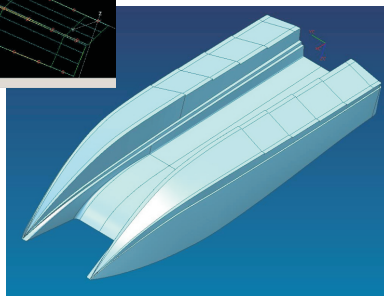

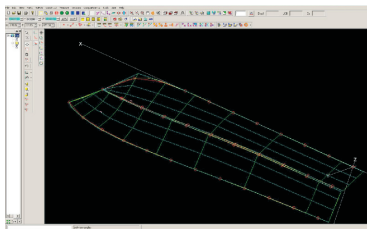

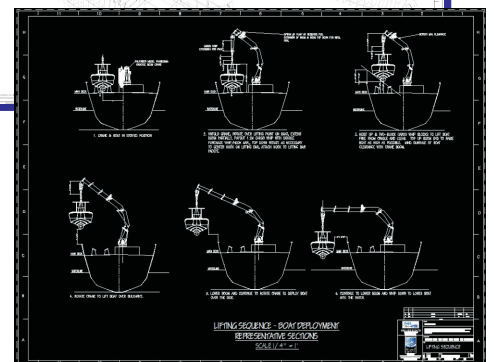

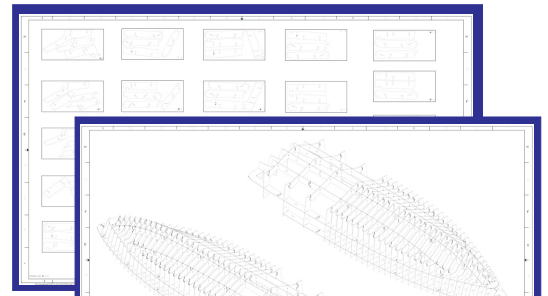

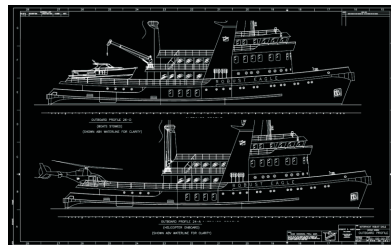

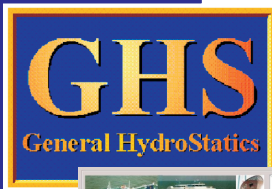

Ocean5 principle naval architects John H. Canada & Robert S. Kaidy have the expertise to develop designs that perform to your specifications. Keeping an eye on the details and a focus on the customer, has made Ocean5 the naval architecture firm of choice for many boat and yacht builders in Florida, and throughout the world.

Mr. Kaidy and Mr. Canada both share extensive industry experience, including direct employment for several very large production boatbuilders, custom yacht and megayacht builders, and naval architecture firms. The principals bring this experience to bear on each project, helping to join design, engineering, production, marketing and sales, and management goals seamlessly into successfully executed vessels.

- Hullform design, specializing in high speed planing hulls
- Hydrostatics, trim & stability, inclining, weight estimates
- Powering & resistance, performance prediction, propellers
- Structural design & calculations, fabrication details
- Regulatory compliance, ABYC, CE, ABS, DNV, MCA
- 3D 5-axis mill-ready geometry, 2D hull jig & small part jig kits
- General arrangements, exterior styling, yacht design
- Engine repower, mechanical refits, machinery foundations
- Custom one-off projects, cranes, davits, hardtops, & masts
- Composites, steel barges, aluminum & custom cold molded

Whether you need full and complete vessel design, or just a new hull, weight study, or structural analysis, Ocean5 would like to be the naval architects on your design team!
